

**YOUTH FIGHT
FOR JOBS**

Say no to the racist BNP!

The BNP have won two seats in the European Parliament with 943,000 votes across the country. Many people will be outraged and disgusted that this far right, racist group has another platform to air their views. But they got in because of the collapse of the labour party and the lack of an alternative for working people. we need to expose the far right, racist nature of the BNP, and build a campaign for a working class alternative.

We are fighting for a future. We demand:

For Jobs, homes and services not racism! support the Youth Fight for Jobs campaign

No to the racist BNP! For a new mass party that represents and unites the working class and youth
for a world free of war, terror, racism and oppression.
